About

Full Stack Web Developer with hands on experience building real world web applications and modern AI-assisted development workflows. Strong in Python, Django, REST APIs, PostgreSQL, React, and scalable backend development, with experience integrating AI APIs and using tools such as Claude, Gemini, and AI coding assistants. Built end to end full stack applications independently, including e-commerce, restaurant management, and productivity platforms with secure authentication, payments, scalable APIs, and AI-integrated features. Passionate about problem solving, simplifying technical concepts, and building modern technology solutions.

Technologies

Languages	Python, JavaScript, C
Frontend	React, TailwindCSS, HTML, CSS
Backend	Django, Django REST Framework, PostgreSQL, MongoDB
AI Tools	Claude, Gemini, Gemini CLI, ChatGPT, OpenRouter, v0, Lovable, Antigravity
Developer Tools	Git, GitHub, VS Code, Postman, Vercel, Render, AWS, Figma
Concepts	REST APIs, Authentication Systems, Scalable Architectures, API Integration, AI Workflows, Problem Solving, Data Structures and Algorithms

Experience

Full Stack Developer Trainee | Brototype

2025

- Developing full-stack web applications using Python, Django REST Framework, React, and PostgreSQL.
- Building scalable REST APIs, authentication systems, responsive user interfaces, and following clean code practices using Git and GitHub.
- Gained experience working in a professional IT learning environment, improving problem solving, adaptability, communication, teamwork, and continuous learning skills through real world project development.

Leadership & Communication

Communication Team Lead

- Led a communication team and coordinated team activities, responsibilities, and collaborative discussions.
- Helped peers understand technical concepts, solve problems, and improve communication during learning sessions and project discussions.
- Actively participated in presentations, group activities, and communication-focused sessions, improving leadership and mentoring abilities.

Projects

EduFlow | Django REST Framework, PostgreSQL, React

 2025

Educational productivity platform with AI-integrated features.

- Designed responsive React frontend using TailwindCSS with reusable components and dark mode support.
- Integrated Gemini API for AI chatbot functionality and smart productivity features.
- Built modular features including smart notes, Pomodoro timer, habit tracker, dashboards, and community groups.
- Structured scalable backend architecture using Django REST Framework.

FreshEasy | Python, Django, PostgreSQL

 2025

Full-stack e-commerce platform for fresh product delivery.

- Implemented Google OAuth authentication, product catalog, cart, wishlist, and complete order lifecycle.
- Built admin dashboard for inventory, order, and user management.
- Integrated Razorpay payments, wallet system, coupons, refunds, and secured API endpoints.

WhereIsMyMenu | Django REST Framework, React, PostgreSQL

 2026

Restaurant management and food ordering platform.

- Built a digital restaurant management system with separate dashboards for admin, kitchen staff, and waiters.
- Developed features for menu management, order handling, customer food ordering, and restaurant workflow management.
- Independently developed the platform using modern AI-powered development workflows and tools including Claude, Gemini CLI, and Antigravity.
- Designed scalable backend APIs and responsive frontend interfaces for efficient restaurant operations.

Findiff | Node.js, AI APIs, CLI Development

 2026

CLI developer productivity tool for AI-generated Git commit messages.

- Built a terminal based CLI tool that generates meaningful Git commit messages using multiple AI providers including Gemini, OpenAI, OpenRouter, and NVIDIA models.
- Improved developer workflow efficiency through AI-assisted commit generation directly from the terminal.

Education

Bachelor of Computer Applications (BCA)

2025 – Present

Indira Gandhi National Open University (IGNOU)
